

## **Stevan Paul – *Land of plenty***

A book about the comfort of warm rice pudding, the art of cooking a lentil dish and the imponderables of love.

Short Stories

Head waiter Adam loves his job, only the guest annoy him from time to time. A food critic follows his senses and makes a little mistake with a big effect. For once a food blogger decides to not buy organic but regular supermarket minced meat, too bad a famous colleague is watching him. And canteen cook Herta Klöpke fights against the rationalisation of her job. For one last night she cooks up a big menu at her former workspace....

With profound wittiness the cook Stevan Paul tells 15 cooking stories, led by the search after the modern land of plenty. That non-magically place is right behind the changing rooms of a berlin department store, is located in Sweden's snowy forests, at the beach of the island of sylt, in the depth of the internet, in the kitchen of a long closed mountain hotel and on the ground of an empty soup plate. And of course there is a matching recipe at the end of every story.
